**“Love Without End / Jesus Speaks”** - is a book about a painting of Jesus done by the book's author, Glenda Green. During the 3 months that it took to do the painting Glenda had many marvelous insights about life, love and the teachings of Jesus, which she tells about in the book. I liken this book to a booster shot, if you consider all of your previous learning's as a vaccination. I consider these teachings as having a real impact on my life as I become more and more aware that I am the love that I am. **Come join me....Thank you...Bob**

## **Transmission Meditation**

**Transmission Meditation is a Divine form of service that assists in raising the consciousness of humanity.**

Maitreya, the avatar of synthesis for this Age, is the inspiration for Transmission Meditation. No former meditation experience is required, only the willingness to be of service to the brotherhood of man.

Maitreya's mission is recreating Heaven on Earth by guiding each to manifest his/her inner divinity. Transmission Meditation is a perfect way of realizing this goal.
